<i>Resources and Helpful Hints</i>	<i>121</i>
<i>Seven Steps to Enlightened Wealth</i>	<i>137</i>
<i>InVeStworks Pioneers</i>	<i>139</i>

Chapter One

There is Enough!

Read the excerpt from “*Conversations With God*” by Neale Donald Walsch on the preceding page. It may be the most powerful piece of advice you ever read.

There is enough. For everyone, forever. All you have to do is respectfully use what you need and share the rest.

“Well, it *sounds* good,” you might say. But in your heart you probably have doubts. That’s because at the core of our thinking is a powerful fear that there is *not* enough, and we must compete, fight or even kill each other to survive.

What if this fear is based on a fallacy? What would you do differently if you knew you would always have enough money and resources? Would you share more? Would you be kinder, more compassionate? Would you reach out to help others? Would you follow your fondest dream or greatest passion? Would you write, sculpt, make music? Would you putter in your garden? Would you spend more time with your family?

What if you didn’t have to be afraid all the time? Our poorest decisions are always made out of fear. Perhaps we would make better decisions if we knew there was enough for us, and for everyone.

But not everyone can have abundance, you might say. Not *everyone*.

Thought to Ponder

“The limits of the possible
can only be defined
by going beyond them
into the impossible.”

Arthur C. Clarke
Author and Scientist

Yes, they can! That's exactly what the InVeStworks model system is all about.

All of us *can* have everything we ever need. There is plenty of money and plenty of resources to take care of every need, every problem, for every person.

This book will show you a powerful method to make that "impossible" dream come true!
